

Résumé

Objective

Apply 12+ years of research and commercialisation experience to develop and improve state-of-the art machine-learning research algorithms and turn them into useful, reusable code that can make life easier for researchers, engineers, and the wider public.

Personal Particulars

Name Dr David Brendan DEAN dbdean.com
Address 379 Milton Rd, Auchenflower, Queensland, Australia
(willing to relocate internationally or work remotely)
Telephone +61 407 151 912
Email ddean@ieee.org

Work Experience

University of Queensland *February 2017 to present* uq.edu.au
Lecturer in Data Science Contribute to the training of data scientists who can tackle real-world problems in business, government and science.

Machine Learning Consultant *September 2016 to present*
Major Clients: Research, implementation, and integration of signal processing and machine learning algorithms into production systems for the detection of health problems from acoustic signals.
Wink Health, California winkhealth.com
M3dince, Brisbane stethee.com

- Developing evaluation frameworks, and designing and deploying an associated distributed processing Docker-based AWS clusters
- Integration of signal processing and machine-learning techniques for use in customer-facing applications
- Evaluation and streamlining of machine-learning techniques for integration onto embedded C platforms

Queensland University of Technology *February 2004 to present* qut.edu.au/research/saivt
Senior machine learning researcher at the Speech, Audio, Image and Video Technology (SAIVT) Laboratory

Visiting Senior Research Fellow Supervision of PhD students and junior post-docs and conducting novel research over a wide range of ARC, CRC and industry supported research areas, including:

Senior Research Fellow (prior to July 2016)

Research Fellow (prior to 2014)

- Developing novel techniques for and commercial implementation of speaker diarisation across court recordings (government and industry funded)
- Improving the performance of speaker recognition approaches in short and mismatched enrolment and verification conditions (gov. and industry funded)
- Organising the collection of real-world databases for the evaluation and development of audio and/or visual speech processing algorithms (gov. funded)

Selected Industry and Academic Research Partners AutoCRC • Smart Services CRC • ValidVoice • NSSTC/DST • Auscript • For The Record • University of Avignon • Radboud University • Universidad Autónoma de Madrid • DevAudio

Clockwork Computing *May 1999 to February 2004*

Résumé

Academic

Queensland University of Technology	<i>Feb 1999 to present (visiting since July 2016)</i>
<i>Publications</i>	652 citations across 70+ publications, with 21 publications having more than 10 citations, and a h-index of 14. Full list available at bit.ly/ddscholar .
<i>Selected Publication Venues</i>	Speech Communication • Computer Speech and Language • IEEE Transactions on Audio, Speech and Language Processing • International Conference on Acoustics Speech and Signal Processing (ICASSP) • Interspeech • Auditory-Visual Speech Processing (AVSP)
<i>PhD Supervision</i>	Visual Recognition of Human Behaviour in Noisy Environments <i>Rajitha Navarathna (2009–2013)</i> Robust Automatic Speaker Linking and Attribution <i>Houman Ghaemmaghami (2010–2013)</i> Speaker Recognition Using I-Vector Features <i>Ahllan Kanagasundaram (2010–2014)</i> Improving Spoken Term Detection Using Complementary Information <i>Shahram Kalantari (2011–2015)</i> Domain Adaptation for Speaker Attribution <i>MD Hafizur Rahman (2014–2017)</i> Speaker Recognition in High Noise Environments <i>Ahmed Kamil (2014–2017)</i> Multi-modal Emotional Recognition Using Deep Learning <i>Dung Nyugen Tien (2015–2018)</i>
<i>Doctor of Philosophy</i>	<i>February 2004 to March 2008</i> Synchronous HMMs for Audio-Visual Speech Processing
<i>Bachelor of Information Technology (with Distinction)</i>	<i>February 1999 to November 2003</i>
<i>Bachelor of Engineering – Electronics (First Class Honours)</i>	GPA of 6.425 (on a 1 to 7 scale, 7 being highest) High Distinction or Distinction in 85% of subjects

Professional

Memberships	IEEE • ISCA • ASSTA • OSMF
Technical Review Committees	Interspeech • ICASSP • SST • Speaker Odyssey • IEEE Transactions on Multimedia • IEEE Transactions on Audio, Speech and Language Processing • Computer Speech and Language • Speech Communication
Invited Speaker	SLAM 2015 (keynote) • Biometrics Institute • Auto CRC • Smart Services CRC

Technical Experience

<i>Research</i>	Deep learning • Data Science • Audio-visual speech • Speaker recognition • Speaker diarisation • Speech activity detection • Image processing • Reproducible research code • Releasing research databases
<i>Software Engineering/DevOps</i>	Project Management • Research Commercialisation • C/C++ • Embedded C • Python • Shell • MATLAB/Octave • Javascript • HTK • Git • Kaldi • Caffe • TensorFlow • Numpy • Scipy • Django • PostgreSQL • MySQL • Docker • Linux • Amazon Web Services • Travis CI • Grid Engine/PBS
